

The State Phone Privacy is a GOOD thing. My time at home with my family IS important. To be disturbed by some YO YO that is trying to get me to buy something should be against the Law. The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved our time at home. How effective is and has Indiana's law been? I used to receive 12 calls per week, now I don't receive one. Ever hear the old saying, "that ought to be against the Law!" Well it is in Indiana. Leave it alone. We enjoy what we have!
